

IX SERIES – Changing price of Products

1. Press the TEST button and then the TICK button twice. You will now be in manager mode. Press ENTER
2. First option (system data) and press ENTER.
3. First option (products) and press ENTER.
4. Now Highlight the first option (Change Price) and press ENTER.
5. Now on the left it will say PLU Number, Type the number of the PLU that you want to change the price of. Press ENTER.
6. Now Type the new price of the product, Press ENTER

It will say ENTRY ACCEPTED if so it will have stored the new price of the PLU. If you want to enter another PLU price then repeat steps 5 - 6

When you are done Press the HOME Key (bottom row - house) twice. This will take you back to the main screen.
